

e-Fax

E-FAX:

- ◆ An innovative way in bridging the transition gap between the archaic fax machine and complete electronic communication. It allows the user to send / receive faxes anytime anywhere in the world through the Internet without using any additional software.

CHARACTERISTICS:

- ◆ - No fax machine or a phone line is required to send / receive faxes.
- Notification function upon receipt of fax
- Able to attach different formats of file to the outgoing fax.
- Time of document to be faxed can be set
- No regional restrictions on the destination of fax including Hong Kong and overseas. (Faxes send within Hong Kong are free of charge while for those sending to overseas are required to have prepaid charges before the commencement of the service)

HIGH ACCESSIBILITY:

- ◆ It only requires an Internet-connected computer to send/receive faxes. Without restrictions in time and space, it is a very convenient tool especially to those people who requires extensive travels.

OTHER FUNCTIONS:

- ◆ - Customization of cover page available for personal/company use.
- CSID available
- Able to send faxes to designated E-mail
- Choice of 3 languages (Cantonese/Mandarin/English) for voice notification.
- Monthly report on the received faxes.
- Able to create new folder for permanent reservation of sent / received faxes.
- Able to setup a personal contact list with also a function of black listing fax number to avoid junk faxes.
- Select 'Colored' or 'Black & White' for file to be faxed.
- Select 'Fax Preview' for the viewing of document content before fax out.

ENVIRONMENTAL FRIENDLY:

- ◆ Print the selected faxes by using the Preview function, it therefore highly reduce the use of paper.

HIGH EFFICIENCY:

- ◆ There will be no more traffic problem on sending/receiving fax. E-fax is able to handle multiple jobs simultaneously. Hence it is considered as a highly efficient tool in the modern world.

ECONOMICAL EFFECT:

- ◆ No more expenses on maintaining a fax machine or renting a fax line. Faxing can be performed on a computer which actually saves space and money.

HIGH RESOLUTION:

- ◆ It is no doubt clearer to print out faxes with a printer than a fax machine.

E-FAX ACTIVATION:

- ◆ Immediately activated once the application is received.

REQUIRED DOCUMENTS:

- ◆ A copy of personal identification or a Business Registration

NOTIFICATION:

(FREE OF CHARGE)

- ◆ Notify you upon receipt of fax via cell phone.
(for HK & CHINA mobiles only)
- Notify you upon receipt of fax by SMS (for CHINA mobile only).

REMARKS:

- ◆ The outgoing fax service is limited to 1,000 pages / month only. Service will be temporarily suspended and re-activated the month thereafter if outgoing fax exceeded the limit.
Only standard dial tone is compatible with the voice notification system, any other dial tone is not suggested (e.g. music).
